

COMMUNITY UPDATE

West Norfolk Rural & Farming Community

I have received reports in relation to access to farms by members of the public to exercise, themselves and their dogs. Many will be ignorant of the damage they cause and dangers they encounter on farms. Consider putting up signs and keeping gates locked to prevent unauthorised access. Below are some innovative methods to prevent access, not suitable for all but might be worth consideration. There has also be a large increase in anti social use of motorbikes/ quads and as a result we will be out on dedicated patrols using off road vehicles/ quads to target them starting the first weekend in May.
